 - iv. Masters Series Tournaments and Championship

2. Ranking / Points Calculation

- a. The Ontario Ranking System will track tournament results for the eligible provincial and national tournament and is designed for athletes, their parents, and their coaches to:
 - i. Provide feedback on standings and progress throughout the season;
 - ii. Provide a tool in which athletes can set and measure goals;
 - iii. Provide a means to discover and develop among peers;
 - iv. Motivate and prepare athletes in their development;
 - v. Encourage higher levels of participate and athlete development
- b. Badminton Ontario has outlined a ranking grid for use in the provincial rankings. Only results using Toernooi Tournament Software will be included in the Ontario Rankings.
- c. Rankings will track singles, doubles, and mixed doubles. Ranking points will be the sum of an athlete/pairs top four results of eligible tournaments, over a 52-week span.
- d. Athletes/pairs gain points according to how far they progress in the draw of a particular event per age group. Each athlete/pair must win at least one match in a draw to gain points. If an athlete/pair:
 - i. Had a bye in the first round and lost in the second round – they move to the consolation rounds.
 - ii. Had a bye in the first round, won in the second round and lose in the third round – they receive third round loser’s points.
 - iii. Had a walkover in the first round and lost in the second round – they move to the consolation round.
 - iv. Had a bye in the first round, a walkover in the second round and lost in the third round – they move to the consolation round.
- e. Athletes entering into the consolation rounds will be receiving points based on which round they were eliminated.

- i. Lost in the main round in the first round (entering into consolation), won the first round of consolation and lost in the second round of consolation – they receive consolation second round loser’s points.
- f. Athletes remaining in an age category for the new season will use their existing points for the first tournament in which they participate. For athletes moving up into an older age category, they will carry forward fifty percent (50%) of their points for seeding at the first tournament in which they participate in the new season.
- g. If an athlete has a combination of results obtained within their respective age category and results obtained while playing up an age category or two, tournaments will use the most up to date number of points for the age category which the athlete is participating in for that particular tournament; or the ranking points with the partner if applicable.
- h. The Ontario Ranking System points grid used in calculating rankings regardless of age classification can be viewed on the website here:
<https://www.badmintonontario.ca/ojrs-ontario-junior-ranking-system/>

3. Seeding

- a. The minimum number of seeds in a standard draw will be:

- b. All seeding will be done using the Badminton Ontario Ranking System as of two weeks before the tournaments; questions of concerns may be brought forward to the host committee before any draws are released.
